

**Lambeth Stop Smoking Services Training
And Development Programme 2014-15**

The success of the services depends upon highly trained and skilled advisors. The level 2 smoking cessation course is a two-day training programme which will equip you to provide intensive one-to-one support and advice to smokers who are motivated to stop.

Level 2 training courses are intended for those interested in supporting and monitoring clients throughout an intensive 4-week quit programme. For anyone unlikely to have the capacity to do this, but who wishes to learn more about stop smoking services and treatments, brief intervention training (level 1) is also available. Please feel free to contact the team on 0800 856 3409 regarding this or any other query.
